Mr. Charles A. Veitl, Superintendent
George Washington Memorial Parkway
Turkey Run Park
McLean, Virginia 22101

Dear Mr. Veitl,

In the past we have contacted your office regarding the hazardous traffic situation that exists at the entrance ramp onto the Parkway heading towards the beltway. Your office has concluded in the past that the amount of funds required to improve the situation is not justified when considering the volume of traffic using the ramp.

However, numerous CIA employees have again expressed their grave concern with this situation both to senior management of the Agency and also to my office. There have been numerous "close-calls" with traffic on the Parkway and it seems that this traffic is very seldom observing the posted speed limit. There is great potential for a very serious accident.

I would appreciate it if you would kindly take another look at the problem we have discussed above and let me know at your earliest convenience what can be done to better safeguard our employees using the ramp onto the Parkway.

Respectfully,

[Redacted Signature]
